Heavy Duty Lip Frame Shape	HLS20
Vertical Two-Track Screen Door Insert	2V60
Cabana Door	CD90

**Measuring:**

We recommend that at least three (3) measurements be taken on the width and height of the opening. When placing your order give the smallest recorded measurement for both width and height.

**Ordering:**

"Opening Size" measurements are preferred

All sizes must be given width x height in inches - see product specifics for standard cutbacks (deductions) or order by actual unit size

**Size selection:** *(varies by product)*

Opening size with 1/8" cutback (deduction)	Size of the finished opening; product will be manufactured 1/8" smaller in width & height
Opening size with 1/4" cutback (deduction)	Size of the finished opening; product will be manufactured 1/4" smaller in width & height
Opening size with 3/8" cutback (deduction)	Size of the finished opening; product will be manufactured 3/8" smaller in width & height
Actual window size with no cutback (no deductions)	Actual unit size not including the installation flange; product will be manufactured to this size

**Ordering Sequence:**

Upon request, PGT will number the units in the same order they are given thus avoiding confusion during installation. When measuring, start at one end and work your way around the room, numbering each opening in sequence and give your Customer Service Representative the unit sizes in the same order they were measured.
